# FIRST ROBOTICS

Home of FTC teams 6128 and 7935,  
and FRC team 1595

## ABOUT

---

Our FIRST robotics programs engage students from middle through high school. Students in the middle school participate on our two FIRST Tech Challenge (FTC) teams and students in the high school can participate both in FTC and FIRST Robotics Competition (FRC). As part of an FTC team, new team members learn the basics of robotics while returning members help mentor and guide the teams.

## WHAT YOUR SPONSORSHIP HELPS SUPPORT

---

Travel  
Expenses

Registration  
Fees

Raw Materials

New Tools
